

COMMUNITY CARE FUND: IMPROVING LIVES SINCE 1957

Since 1957, United Way of North Idaho has been fundraising and supporting local nonprofit organizations, proving to be the most **powerful investment** you can make in our community. We bring together human services agencies, government, businesses, and dedicated volunteers around a common vision of creating maximum impact and achieving **long-lasting results**.

But how is this done? By including the community. Our focus areas are education, financial stability, and health. Each of these focus areas has a team of

trained volunteers known as our **Community Impact Councils**. It is the charge of these impact councils to understand current community needs, determine funding goals by area, and review applications to invest funds to make the greatest impact.

Below are goals set by our Community Impact Councils. See the reverse side for a list of our currently funded programs and services.

No fees are taken from contributions to the Community Care Fund and all contributions made to the CCF stay in North Idaho!

SCHOOL READINESS 

GOAL Children birth through age five enter school ready to learn.

YOUTH SUCCESS 

GOAL Youth stay engaged in school, graduate on time, and are ready to succeed.

FINANCIAL STABILITY 

GOAL Individuals and families attain economic mobility.

HEALTH & WELLNESS 

GOAL Individuals and families lead healthy lives.
