

DAY of ACTION

September 25th 2025

*Since 1957, United Way of North Idaho has connected businesses and individuals with our nonprofit community to support and enhance nonprofit work that improves lives every day. In 2006 we started the Day of Caring—a one-day volunteer blitz that brings hundreds of locals working together with nonprofit agencies for the common good. Each year over 15 non-profit projects and 100 volunteers rely on the support of a few sponsors to help ensure the day is energizing and engaging. **Show the community your company cares about improving the lives of our friends and neighbors in need.***
